

Support for Anesthesia Groups

GasWork.com is the largest internet anesthesia employment resource since 1996. Anesthesia clinicians trust GasWork.com's reputation as the place to find a job.

In an effort to enhance the services already provided, GasWork.com is adding a new service in support of Anesthesia Groups and Healthcare Facilities enabling them both to connect with one another through a searchable database.

Anesthesia Groups can easily post their information, while Healthcare Facilities can post RFP's. Groups and facilities can increase business while matching their needs.

Anesthesia Groups can grow their business by identifying Healthcare Facilities that want to contract for anesthesia services.

The depth of information collected through GasWork.com will enable Anesthesia Groups to make an accurate proposal. The structured information serves as a filter to screen Healthcare Facilities that do not meet required standards.

Please visit GasWork.com or call 1-800-828-2203 for additional information.
